

Your Health Team

You will meet many people during your hospital stay at Arkansas Methodist Medical Center who will care for you. Aside from your Physicians and Nurses, you may come in contact with X-Ray and Laboratory Technicians, Therapists, Pharmacists, Environmental Services Staff, Maintenance Personnel, Dietitians and other Food Service employees, Business and Administrative Staff members, Case Managers, Social Workers, Volunteers, and Clergy.

All Arkansas Methodist Medical Center employees are required to wear an identification badge, with their names displayed prominently. Feel free to ask a staff member his or her name if you cannot read the badge, and ask how their activities relate to your care.
